West Feliciana Parish
PUBLIC SCHOOLS
Dedicated to Excellence • Anchored in Success • Connected to the World

TO: Building Occupants, Parents, Teachers

FROM: West Feliciana Parish School Board

SUBJECT: Asbestos-Containing Building Materials

In compliance with the Environmental Protection Agency's (EPA) Asbestos-Containing Materials in Schools Rule of October 30, 1987, and the Louisiana Department of Environmental Quality's (LDEQ) LAC 33:III.27, we wish to notify you of the following:

1. Asbestos is a building material that has been used in floor tile, ceiling tile, insulation and several other building materials for many years. Asbestos Fibers can cause serious health effects if they are not sealed into a material.

2. Advanced Environmental Consulting, Inc. (AEC) conducted an inspection of the our buildings for asbestos-containing building materials. You may view a copy of the inspection report and action plan by contacting the School Board Office.

3. The action plan, also know as an Asbestos Management Plan, includes a description of asbestos containing materials in the building, procedures for re-inspecting the materials every six months, and a schedule for removing any existing asbestos materials (if applicable).

4. We want you to know that asbestos was identified in some of our campuses. We will continue to keep you informed of actions regarding asbestos.

For additional information regarding asbestos in our school buildings, if any, you may contact Beverly Grant at the School Board Office. Copies of the Asbestos Management Plans are available for review in the Office of each school and at the School Board Office.
